

## VERTICAL CONTINUOUS CAST TIN BRONZES ROUND TUBES

LAROMET produces tin bronzes round tubes in a wide range of sizes. These have special anti-friction properties that allow their use, especially for manufacturing anti-friction bearings and bushings.

We have over 80 years of experience in the production of brass, bronze and copper semi-finished products. All the products offered by LAROMET are manufactured in ROMANIA, in our two production facilities located in Bucharest and Braşov.

- Production to the highest quality standards
- Fast offer
- Manufacturer prices
- Fast delivery directly from stock or on order
